Tactile furniture makes this eco-friendly country house cosy

IN DETAIL UNDER THE STAIRS

The curve of the stairs has been used as clever zoning in the open-plan living area, and the space under the steps provides a niche for a flat screen television, which is mounted on the wall. The TV's white frame blends in seamlessly with the white painted walls. For a similar model, try Currys. (0344 561 0000; currys.co.uk)
